Visible White Photo & Video Prize 3rd edition, 2014.

You See Me.

Personal Identities in the Digital Age.

Open call for photographic & video works.

Visible White is an international call for photographic and video artworks curated by Paul Di Felice and Marinella Paderni.

The curators invite artists to reflect on the theme 'You See Me. Personal Identities in the Digital Age': which values does artistic portrait photography have today in the digital age of social networks in which everyone can become a 'do-it-yourself' portrait photographer?
